TECHNICAL EXPERIENCE

Acciojob — Apprenticeship
- Collaborated with friends on various course projects. Assisted team members in understanding logical approaches to achieve project goals creatively and efficiently. project works and certificate

CodSoft— Internship
- * Optimized web app for better user experience and accessibility across various devices through enhancements in web development, including HTML, CSS, JavaScript, React, and various frameworks.

OctaNet — Internship
- * Enhanced user interface and optimization of web applications, including HTML, CSS, JavaScript, React, and various frameworks.

PROJECTS

CryptoTracker | *ReactJs, Router, API, MUI, Framer Motion, Chart.Js*   May 2023
- * **Front-End Development:** Developed this responsive App using React, React Router, and Axios.
- * **UI/UX Design:** Leveraged Framer Motion for smooth animations and transitions. Utilized Material-UI (MUI) components for consistent and attractive UI elements.
- * **Data Fetching:** Integrated third-party APIs, such as CoinGecko, to provide real-time cryptocurrency data. Efficiently handled data rendering with minimal downtime.
- * **Data Handling:** Implemented pagination for fast data fetching. Used Chart.js to provide insightful and interactive visualizations for users.
- * **Cryptocurrency Insights:** Created an interactive UI to compare over 100+ cryptocurrencies based on various metrics, including price, market capitalization, and total volume.
- * **Deployment:** Hosted the project on the public internet using Vercel for seamless accessibility.
- * Repository: GitHub Repo
- * Live: Live Demo

Financely | *ReactJs, Firebase, HTML5, CSS3*   June 2023
- * **Front-End Development:** Developed a web-based financial management tool for individuals to track monthly expenses, earnings, and budget planning while visualizing spending patterns using interactive charts.
- * **Firebase Authentication:** Engineered Firebase as an authentication service, enabling secure user sign-up and login with options such as Google or email/password authentication.
- * **Data Management:** Implemented an import/export feature for efficient data backup and analysis.
- * **Deployment and Hosting:** Successfully deployed the application to a public domain using Netlify.
- * Repository: GitHub Repo
- * Live: Live Demo

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6)
Full Stack Technologies: Node.js, React Js, Redux, Firebase, Bootstrap, HTML5, CSS3
Data Visualization: Chart.js
UI/UX Enhancement: Framer Motion, Material-UI (MUI), Ant Design
Database Technologies: MongoDB, SQL
Backend Technologies: Express
Version Control: Git, GitHub
API Development and Testing: Postman, Thunder Client

OTHER WORK EXPERIENCE

Assistant Teacher - Adwaita Mission High School
Enhanced education through effective communication and simplified complex concepts for clear knowledge transfer.

EDUCATION

Acciojob	FullStack Development
Oct '22 - Present	*Gurugram, Haryana*
WBUTTEPA	B.Ed
Jul '17 – Jun '19	*Kolkata, India*
Aliah University	M.Sc
Aug '15 – Jul '17	*Kolkata, India*

ACHIEVEMENTS

Top rank holder in Leaderboard during Fullstack Development Course
1st rank holder in M.Sc
Painting and Debate Competition Champion
